

Dear Sirs,

Many thanks for your site submission, as outlined above.

To help us further with our evidence base, we are now in the process of re-engaging all land owners and/or their agents to request some additional details.

In this respect and to further aid us in the evaluation process, we would be grateful if you could provide the following information :

- 1. With regard to The Trowbridge Bat Mitigation Strategy (TBMS) how will the required bat mitigation measures be provided on site.**
- 2. With regard to the presence of water vole along the Lambrook on the site, what measures will be taken to maintain their habitat and welfare.**
- 3. Please provide an illustrative site layout plan for proposed development including suitable alternative access arrangements.**
- 4. How will the layout take account of all sources of flooding (fluvial and surface water)**
- 5. How will the Right of Way be retained as part of the scheme?**

**Please respond to Southwick's Neighbourhood Planning Consultants as per the details below:**

**Attn. Aaron Smith  
Fowler Architecture  
Pewsey**

**We look forward to hearing from you.**

**Kind regards**

**John Eaton, for and on behalf of Southwick Neighbourhood Plan Steering Group.**
