Hi [REDACTED]
This went into my junk.

Subject: Draft Neighbourhood plan

Dear Sir/Madam,

With reference to your recent leaflet inviting comments on the draft plan. I would like to complain that this leaflet is ambiguous and misleading, does not summarise what it is you require and excludes those who are not on-line from commenting. When I did look at the website there are pages and pages of complicated material which the average person – myself included would not have the time or specialist knowledge on being able to understand.

I think the plan is about getting permission to build more houses and decreasing even more the gap or greenbelt or whatever you now wish to call it. I am very much against this for many, many reasons and in the light of a declared climate emergency I fail to see why we are still pursuing new builds which are not build to eco housing standards and are depleting our natural environment even further destroying trees and vegetation that we sorely need in which to survive. I am angry that this is even being considered and considered in a non transparent way when there are many brown site areas in Trowbridge centre that could easily be redeveloped for housing instead of taking up more of our much needed countryside.

Faithfully
